

# LANDSCAPE CONTRACTING

- ✓ **Associate in Applied Science in Horticulture Technology**
- ✓ **Associate in Science in Horticulture Technology**
- ✓ **Horticulture Certificate**

Coursework available in Landscape Contracting includes:

- Principles of Horticulture
- Bidding and Contracts
- Maintenance of Landscape Plants
- Landscape Construction
- Plant Material Identification Courses
- Horticultural Pest Management
- Bilingual Horticultural Communications
- Irrigation and Drainage Design
- Horticultural Soil Science
- Turf Management

Landscape contracting is a very important segment of the horticulture industry. The contracting curriculum prepares students for career opportunities in landscape contracting including landscape construction, plant material installation, irrigation and drainage, maintenance, sales and support.

Coursework provides students with an understanding of methods and materials pertaining to the use of basic landscape elements, their place in the landscape and the maintenance aspects of the completed project.
