

# Division of Arts & Sciences Course List

## General Education

The Arts and Sciences Division of OSU-Oklahoma City is the student's gateway to higher education, whether the student plans to earn an associate degree in a technical program or intends to transfer to a four-year college to complete a baccalaureate degree. Many of the courses offered are required of students attending any Oklahoma public higher education institution and can be transferred for degree credit; other courses offered in this division provide useful and interesting electives to round out a college education. Students can determine whether specific courses will transfer for degree credit or as an elective by consulting the academic catalog of the four-year institution to which the student is transferring.

Courses usually used to fulfill general education requirements are identified by code letters which appear following the course titles listed here and in the back of the catalog. The code letters designate the general education category for which the course may be used. Students should always check with the receiving institution to ascertain specific general education requirements.

## General Education Codes

- A - Analytical and Quantitative Thought
- H - Humanities
- I - International Dimension
- L - Scientific Investigation
- N - Natural Sciences
- S - Social and Behavioral Sciences
