

CLEP Study Materials

Study Resources for CLEP

<http://clep.collegeboard.org/students/exams>

CLEP offers 33 exams in five subject areas, covering material taught in courses that students generally take in their first two years of college. Most CLEP exams are designed to correspond to one-semester courses, although some correspond to full-year or two-year courses. The exams are approximately 90 minutes long, made up primarily of multiple-choice questions, and are administered on computer so you receive your scores immediately after you finish. **Downloadable At a Glance** fact sheets are available for most exams. These include exam descriptions, study resources and sample questions.

Free Online Resources Designed to Refresh Your Knowledge

When you are preparing for your CLEP exam, we suggest consulting textbooks and other materials used in the comparable college course. Many textbooks offer companion websites that provide additional information and interactive features. There are also a number of free and low-cost resources available online.

First, read the CLEP [exam description](#) carefully, and match the knowledge and skills required to any free course or study content.

These resources, compiled by CLEP test development committee and staff members, may help you study for your exam. However, none of these sources are designed specifically to provide preparation for a CLEP exam. The College Board has no control over their content and cannot vouch for accuracy.

Online Education Database Library

<http://oedb.org/library/features/236-open-courseware-collections>

This library links to open courseware, broadcast learning, educational video, archives, lecture webcasts and podcasts from a range of colleges, and scholarly journals. The site also features comprehensive reviews of online colleges and degree programs.

Massachusetts Institute of Technology (MIT) OpenCourseWare

<http://ocw.mit.edu/index.htm>

MIT offers 1,800 free lecture notes, exams, and videos in a variety of subjects, along with supplemental resources.

webcast.berkeley

<http://webcast.berkeley.edu/>

The University of California, Berkeley, presents free podcasts and webcasts of its current and archived courses.

Open Learning Initiative
